**LICENSED PRACTICAL NURSING**

**Certificate Program  
3 Semesters/One Academic Year**

The Licensed Practice Nursing (LPN) program is an integral part of Northeast Alabama Community College and accepts the mission statement and the goals of Northeast Alabama Community College. The Practical Nursing Program is a certificate program that prepares the graduates for the National Council Licensure Examination (NCLEX-PN) leading to licensure as a practical nurse. The review of the application by the State Board of Nursing determines eligibility of the applicant to take the licensure examination.

Legal requirements for licensure in the State of Alabama are listed in the Alabama Board of Nursing Administrative Code. The applicant for licensure examination should be aware that eligibility for initial and continuing licensure in Alabama includes questions concerning such matters as convictions of criminal offenses, convictions for driving under the influence of drugs/alcohol, treatment for mental illness, treatment for chemical dependency, disciplinary action by a state board of nursing, placed on a state/federal abuse registry, or courtmartialled, disciplined, or administratively discharged by the military. The application to take the licensure examination

may be denied by the State Board of Nursing if all the requirements as listed in the Alabama Board of Nursing Administrative Code are not met by the applicant. Although these policies refer specifically to Alabama, other states have similar stipulations regarding licensure. Individuals must meet the following criteria for initial licensure as a practical nurse.

1. Complete all requirements for graduation from an approved nursing program.
2. Receive approval by the State Board of Nursing to take the National Council Licensure Examination (NCLEX).
3. Achieve a passing score on the National Council Licensure Examination (NCLEX).

**ADMISSION REQUIREMENTS:**

1. Unconditional admission to the College.
2. Complete application to the Nursing Program by June 1st.
3. A minimum of 2.50 cumulative grade point average (GPA) for students with previous college work.
4. A minimum of 2.50 high school GPA for students without prior college work (GED acceptable in lieu of high school transcript).
5. Eligibility for English 101 and Math 116 as determined by college policy.
6. Good standing with the college.
7. Meet essential functions required for nursing.
8. Student must score 76 or higher on the COMPASS Reading Score (or ACT Reading Score of 17 or higher).

Admission to the Practical Nursing Program is competitive and the number of students accepted is limited by the number of faculty and clinical facilities available. **Meeting minimal requirements does not guarantee acceptance.**

Should the student decline acceptance or be denied admission based on qualifications, he/she must resubmit an application by **JUNE 1st** of the following academic year. It is the student's responsibility to adhere to the admission requirements described. **Students should contact a nursing advisor for clarification, if needed.**

**IT IS THE RESPONSIBILITY OF THE STUDENT TO KEEP THE NURSING APPLICATION UPDATED. APPLICANTS ARE ENCOURAGED TO VERIFY COMPLETION OF PROFILE PRIOR TO THE FILING DEADLINE.**

**SELECTION OF APPLICANTS:**

Selection of applicants will be based on the following criteria:

1. Grade earned in English 101 and Math 116 or high school grades in Algebra II, and Biology.
2. COMPASS Reading Score of 76 or greater (or ACT Reading Score of 17 or greater). Students who score less than 76 will have one (1) additional opportunity to take the COMPASS Reading test.
3. Students currently enrolled or students who have previously completed courses at Northeast will be awarded 11 bonus points.

Each applicant will be evaluated according to the following scale. Applicants will be selected according to their total score.

**PRACTICAL NURSING PROGRAM REQUIREMENTS:**

1. Student must comply with legal, moral, and legislative standards in accordance with the Alabama Board of Nursing Administrative Code.
2. Student must respect the client's right to privacy by protecting confidential information unless obligated to disclose in a court of law under proper authorization or legal compulsion (Alabama Board of Nursing Administrative Code). **Students may be expelled from the nursing program for failing to comply with this requirement.**
3. Student must achieve a grade of "75%" or above in each required nursing course to continue in the nursing program.
4. Student must take all tests according to the scheduled dates. If student misses a test, he/she must provide appropriate documentation in order to receive a make-up test. Make-up exams will be given during the week of clinical make-ups, prior to the final exam. If more than one exam is missed, all exams must be made up on the same day.
5. Clinical performance involves client safety. A student may be removed from the clinical area if the instructor perceives the student to be a threat to client safety. The student must achieve a clinical rating of satisfactory according to the established course criteria in all nursing courses requiring a clinical component. A rating of unsatisfactory in clinical

performance will result in a grade of "F" for the nursing course regardless of any other grading component in the course. A student who has been unsatisfactory in providing safe effective client care in the clinical area will not be allowed readmission into the nursing program.

6. Student is expected to be academically honest. Any student found guilty of cheating may be removed from the program with a grade of "F."
7. Student must secure professional liability insurance at the beginning of the academic year prior to placement in a clinical agency.
8. Student must show documentation of current cardiopulmonary resuscitation (CPR) certification prior to placement in a clinical agency.
9. Student is required to obtain a health evaluation by a qualified health practitioner on the form provided by the nursing department. (Due by the first day of class)
10. Student is required to obtain an evaluation of the Essential Functions as determined by a qualified health practitioner on forms provided by the nursing program. The evaluation must be submitted by the first day of class. Additional health examinations may be required depending on physical or psychological alterations which may occur during the program of study.
11. With occupational exposure to blood and other body fluids, the student is at risk of acquiring Hepatitis B virus infection. Clinical agencies encourage students to receive

a series of three Hepatitis B vaccines. The student must receive the first vaccine prior to attending the first day of class of the admitting semester. Students may refuse the vaccine series by signing a declination policy provided by the nursing department. It is the student's responsibility to obtain the vaccine from their personal healthcare provider.

12. As required by the clinical agencies, the student is required to submit to a pre-clinical drug screen. Additionally, random drug screens may be required should the student exhibit behaviors indicative of substance abuse during a clinical experience. Drug screening test(s) will be at the student's expense. A positive drug screen will prohibit the student from completing the clinical requirements of the nursing curriculum.
13. As required by the clinical agencies, the student is required to submit to a criminal background check prior to placement in a clinical facility. Students who have a positive background check will not be allowed to complete the clinical component of the nursing course and would need to withdraw from the nursing course.
14. Student must be registered prior to attending class.
15. Student must participate in the HESI Computerized testing. This is a testing program integrated throughout the curriculum aimed at increasing student retention and NCLEX-PN scores. The cost for all tests is approximately \$75.00. If the student scores below passing on any HESI exam, remediation will be required. Students who do not pass the Exit Exam on their first attempt will be required to retake the Exit Exam prior to graduation for an additional fee of \$35.00. Students who do not pass the Exit Exam after three (3) attempts will be required to attend a NCLEX-PN review course prior to taking the NCLEX-PN exam.

#### **COURSE GRADE:**

A course grade will be determined based on theory and clinical performance.

**Students must achieve a grade of "75%" or above in each required nursing course to continue in the nursing program. A grade below "75%" will result in a "D" or an "F" depending on the numerical score.**

|                       |                     |            |
|-----------------------|---------------------|------------|
| <b>GRADING SCALE:</b> | <b>90-100</b>       | <b>= A</b> |
|                       | <b>80-89</b>        | <b>= B</b> |
|                       | <b>75-79</b>        | <b>= C</b> |
|                       | <b>60-74</b>        | <b>= D</b> |
|                       | <b>59 and below</b> | <b>= F</b> |

#### **ATTENDANCE POLICY FOR NURSING STUDENTS:**

##### **Theory**

The student must be present 80% of the scheduled class dates in order to demonstrate the expected course outcomes and successfully apply theoretical concepts to the clinical practicum.

##### **Clinical Laboratory**

Attendance in the clinical laboratory is required at 100% in order to accomplish the clinical laboratory objectives. Clinical absences must be made up prior to beginning the next semester. Upon return to class, the student must make arrangements for making up the clinical absence with the clinical instructor. Extenuating circumstances will be evaluated by the Nursing Faculty Committee.

##### **Responsibility to Agencies**

All students are assigned to various health care agencies for clinical experiences. Students scheduled in health care agencies for clinical experiences must be acceptable to those agencies. The student is responsible for complying with policies and procedures required by the agency. Failure to meet this requirement may mean that the student is excluded from a required clinical experience and may be unable to complete the nursing program.

#### **PROGRESSION POLICY:**

In order to continue in the nursing program, the student must:

1. Maintain a grade of "C" or better in all required general education and nursing courses and maintain a 2.0 cumulative GPA.
2. Unless completed previously, students must complete all required general education courses according to The Alabama College System Nursing Education curriculum. Any exceptions must be approved by the nursing program director.
3. Be acceptable by clinical agencies for clinical experience.
4. Maintain ability to meet essential functions for nursing with or without reasonable accommodations.
5. Students must successfully complete the program:
  - a. Within 48 months from initial semester for the Associate Degree Nursing students; or
  - b. Within 24 months from initial semester for the Licensed Practical and Mobility students.
6. Maintain current CPR course completion at the health care provider level.
7. A student with an unsuccessful attempt in a nursing course (W, D, or F) cannot progress until the course is repeated successfully. Course repetition will be based on instructor availability and program resources.
8. Withdrawal and/or a D or F in one or more nursing courses in a term is considered one unsuccessful attempt.
9. A total of two unsuccessful attempts (D, F, or withdrawal) in the nursing program will result in dismissal.
10. If a student has been unsuccessful in the Associate Degree Nursing Program, the student may apply for admission to the Practical Nursing Program. If a student has been unsuccessful in the mobility program, the student may apply for admission to the generic program.

11. A student who has been dismissed from a specific program (ADN/PN/Mobility) may apply for admission as a new student to any nursing program within the Alabama College System, provided:
  - a. The student meets current entry requirements;
  - b. At least two years have elapsed since the student's dismissal from that specific program;
  - c. The student was not dismissed from the previous program for disciplinary reasons or for unsafe/unsatisfactory client care in the clinical area.

**REINSTATEMENT POLICY:**

1. Students whose progression through the nursing program is interrupted and who desire to be reinstated must schedule an appointment with a nursing faculty advisor to discuss reinstatement. Students must meet the following criteria:
  - a. Students must apply for readmission to the nursing program and to the college if not currently enrolled;
  - b. Requests must be received by published deadline;
  - c. Students must request reinstatement within one year from the term of withdrawal or failure;
  - d. Students must adhere to nursing curriculum and/or program policies and procedures effective at the point of reinstatement.
2. Reinstatement to the nursing program is not guaranteed. Selection for reinstatement is based on GPA at the current institution and space availability. Reinstatement will be denied due to, but not limited to, any of the following circumstances.
  - a. Grade point average is less than 2.0 from courses completed at current institution.
  - b. Refusal by clinical agencies to accept the student for clinical experiences.
  - c. Twelve months have elapsed since the student was enrolled in a nursing course.
  - d. Student has been dismissed from the program.
3. Students dismissed from the previous program for disciplinary reasons and/or unsafe/unsatisfactory client care in the clinical area will not be allowed reinstatement to the nursing program.

**TRANSFER POLICY:**

The transfer policy applies only to students desiring to transfer between Alabama College System institutions. It does not apply to students wishing to transfer from other institutions.

1. Must meet minimum admission standards for the nursing program.
2. Must provide evidence of a grade of "C" or better in all required general education and nursing courses taken at another institution which are to be applied toward completion of the program and maintains a 2.5 cumulative GPA at the time of transfer.

3. Students must successfully complete the program within 24 months from initial semester.
4. Must be a student in good standing and eligible to return to the previous nursing program.
5. Provide a letter of recommendation from the Dean/Director of the previous program.
6. Complete at least 25% of the total program at the accepting institution.
7. Acceptance of transfer students into nursing programs is limited by the number of faculty and clinical facilities available. Meeting minimal requirements does not guarantee acceptance.

**STUDENT ORGANIZATIONS AND ACTIVITIES:**

Students enrolled in the nursing program participate in campus organizations as well as social, cultural and college activities the same as other college students. In addition to the regular activities at the College, students in nursing may belong to the National Student Nurses' Association.

**ADDITIONAL EXPENSES:**

- Uniforms
- Professional liability insurance
- Transportation to and from clinical agencies
- Textbooks and nursing handbooks
- Laboratory packet
- Evaluation of Essential Functions by healthcare provider
- Hepatitis B vaccination series
- Measles immunization
- Drug Screening Test(s)
- Health Education Systems (HESI) testing fee (\$75.00)

Additional expenses anticipated during the final semester of the nursing program are approximate. They are as follows:

|                                 |          |
|---------------------------------|----------|
| NCLEX Application and Licensure | \$285.00 |
| Graduation Fee                  | 43.00    |
| Nursing Pin and Lamp (Optional) | 45.00    |

**ACCREDITATION STATUS:**

- Approved by Alabama Board of Education
- Approved by Alabama Board of Nursing

**PRACTICAL NURSE CURRICULUM**

| Course Number | Course Title                 | Course Credits |
|---------------|------------------------------|----------------|
| FALL SEMESTER |                              |                |
| NUR 102       | Fundamentals of Nursing      | (3-2-1) 6      |
| NUR 103       | Health Assessment            | (0-1-0) 1      |
| NUR 104       | Introduction to Pharmacology | (0-1-0) 1      |
| BIO 201       | Anatomy and Physiology I     | (3-1-0) 4      |

**Total Hours Required for Degree . . . . . 49 hours**

## EMERGENCY MEDICAL SERVICES

The Emergency Medical Services (EMS) program is accredited by the Alabama Department of Public Health and the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Certificate and degree programs meet and exceed standards as set forth by the United States Department of Transportation and the National Registry of Emergency Medical Technicians.

Northeast offers a number of options for persons who are interested in emergency medical services training. Details on these options are listed below.

### Certificates

Certificates are offered for students who want only the essentials required for obtaining an EMT license. See certificate program information.

### A.A.S. in EMS

For those who wish to undergo a more comprehensive degree program, four options are offered.

See the A.A.S. in EMS degree described in this catalog.

### Self-Paced Basic EMT

Northeast Alabama Community College is committed to serving the needs of the community by offering EMT classes that fit the schedules of our students. Unfortunately, the challenge of scheduling in today's busy world prevents some individuals from realizing their goal of receiving EMT training. It is from this challenge that the concept for the self-paced EMT Basic course was conceived.

The Alabama Department of Public Health has approved Northeast Alabama Community College to conduct a program entitled "Self-Paced Basic EMT". This will allow students who normally would be unable to attend EMT training to take the training on his/her own time schedule. Students may begin their studies at any time during the year and upon completion, may apply to take the National Registry exam.

For specific admission and course requirements, contact Roger Wootten, EMS Department, at extension 355.

### Professional Development

In addition to primary EMS education, Northeast offers continuing education courses for EMTs, nurses and physicians. National standard courses, like Advanced Cardiac Life Support, Pediatric Advanced Life Support, and others are offered on a regular basis. In addition, specialized courses are offered to meet local and area needs. Various schedules are offered to accommodate emergency services personnel on a variety of shifts.

Northeast also offers EMTs, firefighters, and rescue personnel the opportunity for exposure to rescue courses. Courses in the past have dealt with vehicular rescue, water rescue, dive rescue, and agricultural rescue. Courses are generally offered on weekends to accommodate those who work other jobs during the week.

The EMS program also offers courses for those enrolled in allied health programs and offers first aid and CPR training to business and industry.

### Employment Opportunities

EMTs often find employment at ambulance services, fire departments, in hospitals, and industrial settings. Experts predict, due to imminent changes in our health care system, that the scope of practice for the EMT will change as well. This change is expected to bring greater employment opportunities to the EMT.

### Admission to the Program

To apply for admission into the EMS program, the student must first gain admission to Northeast. This may be accomplished by filling out an application for admission and taking the placement test. The application may be downloaded from the college website.

Once college admission is granted, the prospective student must:

- provide proof of successful completion of an approved CPR training program; or register for EMS 100, CPR; and
- show proof of an acceptable physical exam, including vaccinations; and
