This added tool gives students consistent content reinforcement and strengthens retention. We offer the only First Pass Commitment.

## Provided with the Course:

- FP-C | CFRN Exam Prep & Advanced Practice Update Manual - #1 Best Seller in Transport Medicine
- Access to our online practice exams - timed, random 130-question test with rationale
- 24 CE hours, approved and awarded for CE for nurse and paramedics

## What CE's are offered and is this course an approved IBSC course?

Our review course has been reviewed and approved as an IBSC review course for initial FP-C & CCP-C certification, and continuing education via in person, and online delivery methodology. This activity was approved by the Emergency Nurses Association. The Emergency Nurses Association is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation (ANCC). In addition, all Paramedic CE hours are awarded through the Commission on Accreditation for Pre-Hospital Continuing Education - CAPCE.

## What are the first-time pass rates with the course?

This is a hard number to pinpoint. Any company that states they can identify their first-time pass rates are not being totally forthcoming. There's no way of getting that information from the IBSC, or BCEN. The best way to get the most accurate information regarding this subject is to contact each student in an attempt to identify successful passing of their exams based on their respective discipline. One of our primary values as a company is the relationship we have with our students. Your success helps guide our success, and the success of your peers.

## How do I register for the course?

All registration will be handled through the FlightBridgeED website.
