Comments*

Please briefly describe an outstanding activity, course, event, or person you encountered or experienced at NACC.

- Andrea Owku was the "go to" person. When I needed anything she would be the first to help with my situation.
- Being at NACC, I had the opportunity to work with the amazing faculty that they have. The faculty is always willing to help you. The teachers are easy to work with and they are willing to help you out no matter what your situation is. What I also liked is that most of the teachers are challenging which is great so that you will appreciate responsibility.
- Dr. Kathy Adkins, Choir. She was the most understanding and supporting teacher possible.
- I did not have a single bad experience with any teacher at NACC. Every instructor went above and beyond to make sure the material was understood and my needs were met as best as possible regardless of what time it took out of their day. I struggled terribly with math all through high school, but Northeast teachers and tutors took the time to help me understand the material leading to my successful GPA and confidence in a subject I never thought I would have.
- I had the privilege to compete in Skills USA. It taught me alot about public speaking and got me out of my comfort zone. Our team even placed first in state competition and second in the national competition
- I had wonderful teachers, they were positive, and helpful in my graduating. I had stress, 7 children, and a disabled husband and wanted to quit from not being able to complete some of my studies, and they worked with me. Mrs. Dalton, Ms. LACount, and Ms. Pace were very understanding and helped me keep going.
- I loved the theatre. Mr. Webb is an amazing teacher. He helped me to develop a special love for the arts.
- I participated in SGA under Mrs. Joan Reeves. I think this was my favorite experience from attending NACC. I made several friends that I still keep in touch with.
- I really enjoyed my southern literature course with Mrs. Reeves. It was honestly my favorite class out of all of the classes I had taken at northeast. She's an amazing teacher and I really loved doing projects in her class.
- I really enjoyed working with all of the staff members Everyone was very helpful!
- I was extremely satisfied with all of the faculty that I encountered while at Northeast. The most outstanding would include Ms. Chapman, Ms Breland, Mr. Day, Mr. Reeves, Mr. Reed, and Mr. Gambrell. They were all very helpful in providing me with the knowledge that I needed to further my education and become the successful person that I ultimately hope to become.
- I was very impressed with the instruction and support from Mrs. Chandler, Mrs Bloodworth, Mrs Frazier and Mrs Gardner (sorry to see her not at Nacc)
- In my time at NACC, I was able to become acquainted with two outstanding teachers from the English department: Mrs. Tucker, and Mrs. Reeves. Both teachers played a part in expanding my knowledge and love for American and British literature, while also displaying their love and knowledge of the subjects. Wonderful teachers!
- Loved Theatre with Mr. Webb and all the shows he puts on every year.
- Misty Chapman was an amazing teacher and person! She made my experience in the Biology department wonderful!
- Misty Chapman was an excellent instructor that was willing to give extra help if needed
- Mr Gambrell's speech class was very fun and useful. I felt that the instructor cared about his students and their education.
- Mr. McBride. Mr. Colvard. Mrs. Reeves. Mr. Niblett. Mr. Camp.
- Mr. Ragsdale was an exceptional advisor. Even when I was graduated from NACC, and Athens State was refusing to follow the STARS Guide, Mr. Ragsdale came to bat for me for months. Sadly, Athens State got their way. I was though impressed that Mr. Ragsdale went above and beyond for a former student. Once an advisor, always an advisor...no matter what. That is personal service that I do not take for granted. Because of this type of personal experience for not just me, but also my husband, our 3 children will attend NACC as well. It is a family tradition now.
- Mr. Rodney Land was a phenomenal person who I met and had for general chemistry and organic chemistry. I also had some problems before I transferred from NACC and he contacted Auburn and helped me to resolve those problems with them, even though he was not my advisor. I wish I would have changed my advisor to him. He is one of the best professors and faculty that NACC has.
- Mr. Woodall's psychology class was excellent and down to earth.
- Mrs. Chandler was great!
- Mrs. Chapman (anatomy instructor) is an amazing teacher and helped prepare me for nursing school. I am so glad I had a hard teacher to prepare me for the exams in nursing school. Mrs. Gardner (nursing instructor) is the most caring, helpful, and positive person in the entire nursing program. If it wasn't for her, I would not have graduated nursing school. She pushed me to do my best and to never give up. The nursing program will definitely suffer without her, but Gadsden State is blessed and lucky to have her.

Northeast Alabama Community College
2017 Alumni Survey Report

- Mrs. R Walker. This teacher will do anything she can to help you.
- Mrs. Smith was my English 101 teacher and she was fantastic!!
- Ms. Keri Hamrick was my favorite instructor at NACC. She did an exceptional job teaching History, and she made it interesting. She was always there to offer a helping hand.
- Ms. Lacount was a very helpful instructor of mine. She helped when you had something going on so that you didn't miss anything or had to be late arriving. She would answer questions in detail while trying to explain how to do something so that the person could understand it better.
- My English class with Mrs. Reeves really prepared me to be able to write well.
- My favorite course was accounting 1 and 2.
- My pre-calculus teacher Mrs. Breland was a great inspiring teacher who taught very well.
- Outstanding course was intro to art with Ms. Kilgore. The class gave a well rounded knowledge to the subject--well enough to allow students to pursue his or her own research out of class if he or she wished to continue to learn.
- Participating in SkillsUSA was a great experience that pushed me to learn more about my program of study than what was necessary for the actual degree.
- Professor Nibblet is an awesome math teacher!
- Robby Saint is the best teacher there. He teaches in a way that is easy to understand and inspires his students.
- Sherry Whitten goes above and beyond to help students.
- The English classes with Joan Reeves.
- The English tutoring department was amazing. Dona Kirk was the best. Accounting teacher Keith McBride was my all time favorite teacher. Also Doc Miller was a great teacher
- The History courses under Mr. Billy Day were my favorite classes. I loved his knowledge of History and his experiences that he shared with us.
- The course I most enjoyed was theater appreciation.
- The first thing that comes to mind when I think about NACC is both History with Mr. Colvard and Math with Mr. Nibblet. I had good experiences in both of those classes and greatly enjoyed my time while working with these teachers.
- The most outstanding course that I took at nacc was motor controls class with Barry Wigley. He was able to help me take the leap from theoretical schematics to actually building circuits and being able to understand the function of each object in the circuit and how they can all be used for our needs.
- The outstanding person that I encountered at NACC happened to be the wonderful woman that is head of the English Department. Mrs. Reeves really helped me accomplish my goals as well as make my days there very memorable.
- Was impressed with instructors.
- Yolanda Chandler is one of the most dependable, honest, and helpful instructor I've encountered at my time at Northeast.
- Yolanda chandler was a great nursing instructor and role model friend to all very positive attitude and very helpful

What did you like best about NACC?

- The teachers
- A lot of the teachers that I was fortunate to have had a genuine interest in what they were teaching and actually wanted us to learn. Most all of them were great people and I would love to do it all over again.
- At NACC, I enjoyed that the instructors always made themselves available to help and guide you when you had a problem figuring something out.
- Atmosphere
- Class options
- Close to home
- Close to my home.
- Community among students and faculty
- Education structure and information provided by faculties.
- Great career choices close to home in a great school
- How they made sure every student had an opportunity to be a part of something and make them feel important
- I enjoyed the clean campus, the helpful tutoring services, and the efficiency of the library staff as well as the administrative offices.
- I have to say that the tutors in the English Department during my time there was outstanding! That is a resource that more students should use.
- I like that the faculty and staff are very friendly and approachable, and that most teachers seem to genuinely care about their students.
- I liked the scenic walks to class and the hidden nooks where you could wait for the next class.
- I liked the smaller number of students to classrooms ratio NACC offered, the computer resources, and most of all the staff.
- I love the atmosphere of the campus. There are so many different possibilities for assistance or advice whenever you need it which alleviates some common stress that may accompany a student in college.
- I loved how everyone there, students and faculty alike were all so kind and helpful and it was so easy to make life long friends.
- I loved that the instructors really cared that you learned the material. They are always there to help when you need it.
- I most liked the convenience of taking distance courses.
- I really appreciated the level of dedication to the honor societies at NACC. I was in SKD, among others, and it really made my time there enjoyable.
- I really liked how close the NACC community was. It was easy to make friends in your major. I also liked the class sizes. They allowed the one-on-one attention students need.
- It felt like home. It wasn't overwhelming in size.
- It was close to home. I was able to work part time while going to school only a few days a week.
- It's close by and a short drive.
- NACC felt like home. The staff was beyond helpful and welcoming.
- NACC is close to home and its small enough where you make long lasting friendships.
- Organizations
- Quality Instructors
- Teachers and staff were always willing to help students in any possible way that they could while still exhibiting fairness.
- The ability to take classes online and on campus so it was able to fit into my schedule.
- The atmosphere was always welcoming
- The availability of Instructors after hours to assist in homework and tutorials and answer questions about lessons
- The campus was in close proximity to my home allowing me to easily fit college classes into my already busy life.
- The convenience of the campus and the ability to take online classes.
- The flexibility that is made available through online classes and evening classes.
- The friendly teachers.
- The online courses and the flexibility of my teachers to let me work around exams and class days with my busy work schedule.
- The option of basic courses
- The plays are awesome. But being able to schedule classes around my home life was great.
- The quality of teaching.

Northeast Alabama Community College
2017 Alumni Survey Report

- The quiet country campuses. Very soothing.
- The thing I liked best about NACC was the helpfulness of the staff. Everyone was willing to guide me and answer any questions I had with kindness.
- The willingness to help you financially no matter what your situation is.
- Tutoring departments. English and math tutors were very helpful
- What I liked most about NACC is the help they offer financially and educationally. They are determined to help you obtain your education.

List any improvements you would suggest for NACC.

- Cheaper books
- Email students when classes required for the degree they are on change.
- Email upgrade
- Everything is perfect the way it is.
- For some majors of study better facilities to learn in.
- I wish it offered more Degree options. Respiratory Therapy, Xray Tech, Diagnostic Imaging, etc.
- I would absolutely LOVE for NACC to become a four year college. I love the college I am currently attending (Athens State University), but it isn't Northeast!!! If Northeast were to ever become a four year school and offer educational courses, I would quickly transfer back!!! While Athens is a great school, it doesn't give its students the feeling of being at home, or provide the students with a welcoming feeling like Northeast does! Northeast left such a great impact on my heart. I will forever be a Northeast Mustang!
- I would like more opportunities for transferring nursing students to have the exposure to nursing specific schools in the area (4 year). I would also like for the nursing advisors to provide more information and advice pertaining to preparation for nursing school.
- I would suggest better training for teachers that are instructing distance classes.
- I would suggest offering an Introduction to Education 200 level class, so any Education major can get that class out of the way in his or her criteria.
- Improved classrooms
- Internet problems during class times
- It would be nice if there were more courses and associate programs, but I think NACC is one of the best community colleges in the area
- Make more classes available online and make some of them available more than once a year.
- Maybe some renovations to some of the older buildings.
- More and possible closer parking.
- More degree specific options
- More skilled tutors in different areas of course works.
- More technical classes for Engineering or Computer Science.
- Nicer staff
- None
- None! I feel like this is a wonderful school
- One thing I disliked was the cleanliness of the buildings. Most of the buildings where I had classes were always worn out. The bathrooms need improvement as well.
- Perhaps the cafeteria could have another option. While I really enjoy the coffee shop there perhaps another stand that specialized in a style of food (example: Italian or Mexican food).
- Provide scholarship to international student.
- Some of the buildings needed updating, which I think was underway with some of them when I graduated. I think that some better chemistry instruments could be added because most were older than the ones we used for labs.
- Sport events.
- Spruce up the campus. Fix up the classrooms especially the ones in the History building and Gym building. Don't neglect them.
- Teachers being more clear and more explanation to assignments while using blackboard.
- The Bookstore at NACC is very expensive and doesn't give much back when returning books. When asked about it, they say the money goes towards Scholarships, but people have a hard time affording it all.
- The English Department could use some revamping of their building. It is very outdated. Some updated furniture and a paint job alone would do wonders. That bathroom though is a whole other issue.
- The bookstore was a rip off. They do not let people rent books and sell over priced books to people without telling them that there are other options available.
- The college should invest in the equipment needed to hold a higher capacity of students per program of study.
- The only improvements I would list for NACC are the improvements that are already being made such as building new facilities and improving the up keep of older ones.

List any specific changes you would suggest to strengthen the program of study you followed at NACC.	
Comments	Program of Study
Have some anthropology classes at NACC instead of relying solely upon when a person transfers to a different institution.	A.S.
I would suggest offering more critical reading classes.	English Education (A.S.)
I think a class to introduce genetics would be very helpful.	Biology
Offer more hands on learning.	Business
Being able to take more classes online and to have some classes more available than once a year.	Business Management and Supervision
This degree was very general, I feel I did not actually learn the things necessary for getting a job in my field; however, the nature of the program is far to broad to cover in a two-year degree and I feel that NACC does a good job of covering as much as possible while also having classes that can get you citified in certain sub-feilds.	Computer Information Systems
Offer more programming and data structure courses PLEASE.	Computer Science
Like I already stated in question 16, the college needs to make it easier for a larger crowd of students to participate in the same courses (e.g. there should be enough equipment to hold more than one class at a time).	Drafting Design Technology
Sadly, and I hate to keep bringing this up, I would not rely on the STARS Guide. Even though its a "contract" per say, I am living proof that a college can and will refuse to follow it. It is best to go by the requirements of the college you are transferring to.	English/Language Arts (A.S.)
I feel that I was well prepared by the English department when I transferred to ASU, and don't know of any suggested changes to present.	English/Language Arts with minor in Education (A.S.)
I primarily studied English courses. I think that the English program has staffed very talented Teachers that are passionate about their jobs. The only thing that could possibly make the English program better is perhaps improvements to the English Building.	English (A.A.)
The only thing I would change is just more local companies getting involved in doing co-ops with northeast	Industrial Electronics
Willingness to help students achieve their dreams with options for extra points	Nursing LPN
more organization and things to be done on time	Nursing
I suggest that the program needs more tutoring opportunities. There were occasions where I needed help with a certain class but there were no tutors available.	Office Administration
I would like more knowledge provided to the students as to how to prepare for nursing school at a four year university.	Pre-Nursing
I wish you guys had a program for veterinarian technicians.	Pre-Veterinary Medicine
I would suggest that they teach updated techniques used in salons and not have such a big class. I feel like I didn't get enough time with the teacher to learn everything I needed to learn due to the amount of students in the class	Salon and Spa Management
Social work and more classes related to social work.	Social Work (A.S.)
